Kinder Beat is an outstanding introduction to music for children aged 2½ – 4 years. It features a variety of activities that children of the 21st century need for brain development and acceleration.

These activities include musical games and mimes, movement, songs, percussion playing and keyboard games. Kinder Beat provides a truly exciting and unique start to music using props such as streamers, rainbow rings and parachutes.

Sydney teachers experienced their own Encore Insight Series in January and were enthralled with the Encore SMART System.

*"I thank you so much for these 3 days. I cannot explain with words how much I enjoyed and loved every little thing you did. I appreciate so much the knowledge you brought to us and your way of looking into teaching, exactly like Europe, the way we do in Bulgaria. I felt privileged to hear the pieces explained by the creators of the books I use... my favourite books and my students' favourite books. Thank you!"*
